COMMENT OF THE DAY

Geneva Success

A GROUP of atomic scientists meeting at Geneva has succeeded in doing something that diplomats have been trying in vain to do for the last 13 years: They reached a precise agreement on a fixed subject between East and West.

Of course it is not yet known what will come of this agreement or if its conclusions will ever enter into practice; nevertheless one important point has been made: The control of atomic explosions can be seriously considered. Despite the occasional ambiguities of the final communiqué, that much is now certain.

Control Possible

THE U.N. Secretary-General Mr Dag Hammarskjold holds that opinion, and the Dominican Republic being absent.

The rare unanimity in the Assembly caused a great burst of applause and relief after seven days of tense and bitter debate.

Step Down

After the vote, two other resolutions were withdrawn.

One was a seven-power Western-backed resolution which would merely turn the Middle East question over to Mr Dag Hammarskjold, U.N. Secretary-General, for efforts at a solution.

The other was a Soviet draft calling for withdrawal of the Anglo-American troops without delay.

Presenting the Arab resolution, the Sudanese Foreign Minister, Mr Mohammed Ahmed Mahgoub, said it brought the Middle East "family" dispute to a "happy conclusion."

The vote came at 2243 GMT, ending for all practical purposes an emergency session of the General Assembly which began last Wednesday when President Eisenhower opened it by outlining a six-point plan for a Middle East peace.

The approved measure, which carried the sponsorship of all 10 Arab countries, dealt with four of the six points presented by Mr Eisenhower.

On the further consideration by the Assembly's regular session, which starts on September 10, was his call for a stand-by peace force.

And his call for steps to avoid an arms race spiral in the

United Nations, Aug. 21. The United Nations General Assembly tonight endorsed a report from its credentials committee recommending a further delay in any action regarding Hungarian and Chinese representation.

Hungary And China Decisions Shelved

United Nations, Aug. 21.

The United Nations General Assembly tonight endorsed a report from its credentials committee recommending a further delay in any action regarding Hungarian and Chinese representation.

The report, presented to the Assembly's emergency session by Mr Thor Thors, of Iceland, recommended no decision be taken for or against the validity of the Hungarian delegation and proposed a "moratorium" in the case of China.

India voiced reservation in both cases.

Dr Endre Sik, Hungarian Foreign Minister, protested at the Committee's findings. His government was a legal body, he said, and Hungary was fulfilling her membership responsibilities.

Since the 1956 revolution, Hungary had continued to maintain diplomatic relations with the majority of United Nations member states, none of which had been severed.—Reuters.

The news follows closely on the announcement that top Communist and Western scientists who have been meeting in Geneva have concluded that an agreement to end tests could be effectively policed.

President Eisenhower will propose a one-year suspension of American tests starting in October or November simultaneously with international talks on the subject, the sources said.

The timing proposed would enable Britain to complete her tests at Christmas Island.

The United States is understood to be consulting Britain and France.

Russia announced suspension of tests five months ago, but the West refused to follow suit in the absence of any guarantee that secret tests could be detected.

The U.S. then proposed the Geneva conference of experts to discuss the subject.

As important and encouraging as it is then, the experts' conference has not settled anything. The problem of continuing or stopping nuclear tests still remains unsolved. The military and the politicians now will have their say. The scientists at least have the honour of having given the future negotiators a solid basis for their discussions. —Reuters.

UN Session On Middle East Crisis Ends 80-0 VOTE FOR ARAB PLAN! Family Dispute Brought To A Happy Ending

United Nations, Aug. 21.

The United Nations General Assembly tonight by a unanimous vote approved an all-Arab peace plan for the Middle East.

The vote was taken by a show of hands without a roll-call. The last obstacle to unanimity was removed when Israel announced that it would vote for the Arab measure, with reservations.

The Measure

The measure:

• Returns the principles of the Arab League pact calling for mutual respect, non-interference, mutual benefit and assurance that conduct "by word and deed" conforms to these precepts. This was taken as meeting Mr Eisenhower's call for "an end to fomenting from without of civil strife" and the West hoped it signalled an end to radio propaganda warfare and border infiltration of subversives and rebellion material.

• Requests the Secretary-General Dag Hammarskjold to make forthwith, such practical arrangements as would adequately help in upholding the principles and principles of the Arab Charter in relation to Lebanon and Jordan.

• It also met Arab and Soviet demands for some call for the withdrawal of Anglo-American forces while leaving the time element only as "early."

• The approved measure, which carried the sponsorship of all 10 Arab countries, dealt with four of the six points presented by Mr Eisenhower.

On the further consideration by the Assembly's regular session, which starts on September 10, was his call for a stand-by peace force.

And his call for steps to avoid an arms race spiral in the

Dr Endre Sik, Hungarian Foreign Minister, protested at the Committee's findings. His government was a legal body, he said, and Hungary was fulfilling her membership responsibilities.

Since the 1956 revolution, Hungary had continued to maintain diplomatic relations with the majority of United Nations member states, none of which had been severed.—Reuters.

Eisenhower Plans One Year Test Suspension

Washington, Aug. 21.

President Eisenhower plans to halt American nuclear tests provided Russia agrees to enter into negotiations for an international ban, diplomatic sources reported tonight.

The news follows closely on the announcement that top Communist and Western scientists who have been meeting in Geneva have concluded that an agreement to end tests could be effectively policed.

President Eisenhower will propose a one-year suspension of American tests starting in October or November simultaneously with international talks on the subject, the sources said.

The timing proposed would enable Britain to complete her tests at Christmas Island.

The United States is understood to be consulting Britain and France.

Russia announced suspension of tests five months ago, but the West refused to follow suit in the absence of any guarantee that secret tests could be detected.

The U.S. then proposed the Geneva conference of experts to discuss the subject.

As important and encouraging as it is then, the experts' conference has not settled anything. The problem of continuing or stopping nuclear tests still remains unsolved. The military and the politicians now will have their say. The scientists at least have the honour of having given the future negotiators a solid basis for their discussions. —Reuters.

Malayan Trade Commissioner For Hongkong Welcomed

Singapore, Aug. 22.

Hongkong merchants welcomed a proposal that Malaya should appoint a Trade Commissioner in the Colony, a Straits Mr Times correspondent in Hongkong said today.

The correspondent said several Hongkong spinning and weaving enterprises planned to move into Malaya.

The Times quoted Mr U Tat Chee, Honorary President of the Hongkong Chinese Manufacturers Association. The appointment of a trade commissioner as saying the only hesitation intending

Tonga Treaty Increases Autonomy

London, Aug. 21. The woman who stole the hearts of the London crowds on the day of Queen Elizabeth's coronation in 1953, has won a bigger share of home-rule for her south sea island people. She is Queen Salote of Tonga (pictured right) who braved the heavy rain and rode in the big procession in an open landau.

For Britain and Tonga have signed a new treaty under which Tonga will continue to be a state under British protection, but will have increased local autonomy, according to a Colonial Office announcement today.

150 Islands

The announcement said that "Queen Elizabeth of England and Queen Salote of Tonga, desiring to confirm and strengthen the friendly relations which exist between them and their respective states, have, with the agreement of the government of the United Kingdom and the government of Tonga, decided to conclude a new treaty of friendship."

The treaty will reflect changes which have occurred since the previous agreements were concluded and will be designed to enable the existing friendly relations to develop, the announcement said.

The Kingdom of Tonga consists of 150 islands and islets in the southwestern Pacific Ocean to the east of the Fiji Islands, running north and south in two narrow parallel

Queen Salote and grandson Prince Taufa'ahau, eldest son of her eldest son, the Prince Minister of Tonga.

She Surfaced Daily Through Holes In Polar Ice

Washington, Aug. 21. The United States atomic submarine Skate crossed twice under the North Pole — on August 11 and 17; when it followed the route pioneered by the Nautilus, the Navy announced here tonight.

The Skate completed an under-ice survey on the polar region. It surfaced daily through holes in the ice. —Reuter.

Spaak May Visit Iceland, Britain

For Compromise Fish Formula

Washington, Aug. 21. Reliable sources said today that eleventh hour visits by Nato Secretary-General Paul-Henri Spaak to Reykjavik and London may be the only way to avoid serious trouble when Iceland enforces its 12-mile fishing limit on September 1.

They said efforts by Scandinavian nations and by the Nato council to work out a compromise formula between Iceland and Britain appear to have made little progress.

If there is trouble between the two countries on September 1, they pointed out, it might have serious consequence for the Nautilus in Iceland.

The sources said Joesefsson recently returned from a visit to Moscow. There was speculation about exactly what he discussed with Soviet leaders although Joesefsson claimed his purpose was to get Russia to increase its quota of fish imports from Iceland. —U.P.I.

U.S. Air Force In Saudi Arabia

Washington, Aug. 21. State Department spokesman Joseph W. Reap said today he had no information on reports that Saudi Arabia intends to ask U.S. forces to leave the Dhahran airfield.

Reap pointed out that the agreement under which U.S. forces may use the field does not expire until 1962. —U.P.I.

Mr U Tat Chee

In Tomorrow's China Mail

FANGIO, Gonzalez, Ascar... all legendary names... What chance did a new boy stand among the world's greatest racing drivers? In tomorrow's instalment of "Men of Speed" Robert Glenton tells the inside story of Mike Hawthorn's desperate gamble on the race track.

Rae Johnston, continuing his own story, gives another great account of horse racing in the feature-packed, 20-page weekend issue of the CHINA MAIL.

Also:

★ Secret Agent another true-life spy story by Lt.-Col. John Baker White;

★ The Changing Shape of the Englishman an authoritative medical analysis;

★ Show Business the inside stories of stardom by top reporters in Hollywood and Britain.

Little Rock Central High To Open As 'All-White'

Court Approves Stay Of Order

St Louis, Aug. 21. The St Louis Federal Court of Appeal today approved a stay of application on its ruling that seven negro students at the school of Little Rock, Arkansas, should be allowed to attend school at the opening of the next school session.

Judge Archibald K. Gardiner announced the stay of application in the name of the Court of Appeals' seven judges, in order to allow the Little Rock School Board to lodge an appeal against the judgment with the United States Supreme Court.

The St Louis Appeal Court had reversed an earlier decision by Federal Judge Harry J. Lemley of St Louis, who had ruled that integration in the Little Rock school should be postponed for two and a half years.

Annulled

The Appeal Court annulled this decision, and then, by today's ruling, stayed the application of its earlier decision, in order to allow the local Little Rock authorities to appeal to the Supreme Court.

Meanwhile, Governor Orval Faubus of Arkansas placed the state legislature on a "standby basis" for a possible emergency session on Monday to deal with

the integration issue at Little Rock.

It had been reported here earlier that Governor Faubus was contemplating an emergency session to enact special state laws to block integration at the school.

Would Open

The Appeal Court's stay will be in effect until the Supreme Court acts on the School Board's petition for a review.

The Supreme Court is in recess until October 6.

Mr Blossom, Superintendent of Schools, said that the Central High School would open on September 2 as an all-white school.

Later, Judge Gardiner told the Clerk of the Appeals that the School Board had only 30 days to take its case to the Supreme Court, instead of the three months usually allowed.

—France-Presse and Reuter.

TICKET FOR OUTER SPACE!

Tokyo, Aug. 21. Mr Mangan Den, President of the Tokyo Rotary Club, said today he had received a "reserved ticket on the first manned outer space satellite."

The presentation of the ticket was made by an "ambassador from the moon flight headquarters, the United States," Mr Hunley Asot of Cocoa, Florida.

Mr Asot also presented Mr Den with membership in a "colony" to be established on the moon.

Cocoa is the city neighbouring the Cape Canaveral missile base.—China Mail Special.

Windsor Castle

Used As Film Set

London, Aug. 21. Scenes for the film "The Blessing," based on the Nancy Melford novel, were shot in the grounds of Windsor Castle yesterday, by permission of the Queen.

Deborah Kerr, as a young Englishwoman, showed Rousinio Braga, as a French officer, the castle set in the background.

Two soldiers of the Scot Guards were used as extra for the brief scene.—China Mail Special.

Half Million Miles Without Refuelling

Washington, Aug. 21. The world's first nuclear-powered merchant ship, now under construction in the United States, may be able to cruise up to 500,000 miles without refuelling, an official of the firm building the ship's atomic reactor said today.

John W. Landis, Assistant Manager of the Atomic Energy Division of Babcock and Wilcox Co., made the statement at one-day symposium on nuclear propulsion of merchant ships. The meeting was sponsored by the U.S. Atomic Energy Commission and the Maritime Administration.

—John W. Landis, Assistant Manager of the Atomic Energy Division of Babcock and Wilcox Co., made the statement at one-day symposium on nuclear propulsion of merchant ships. The meeting was sponsored by the U.S. Atomic Energy Commission and the Maritime Administration.

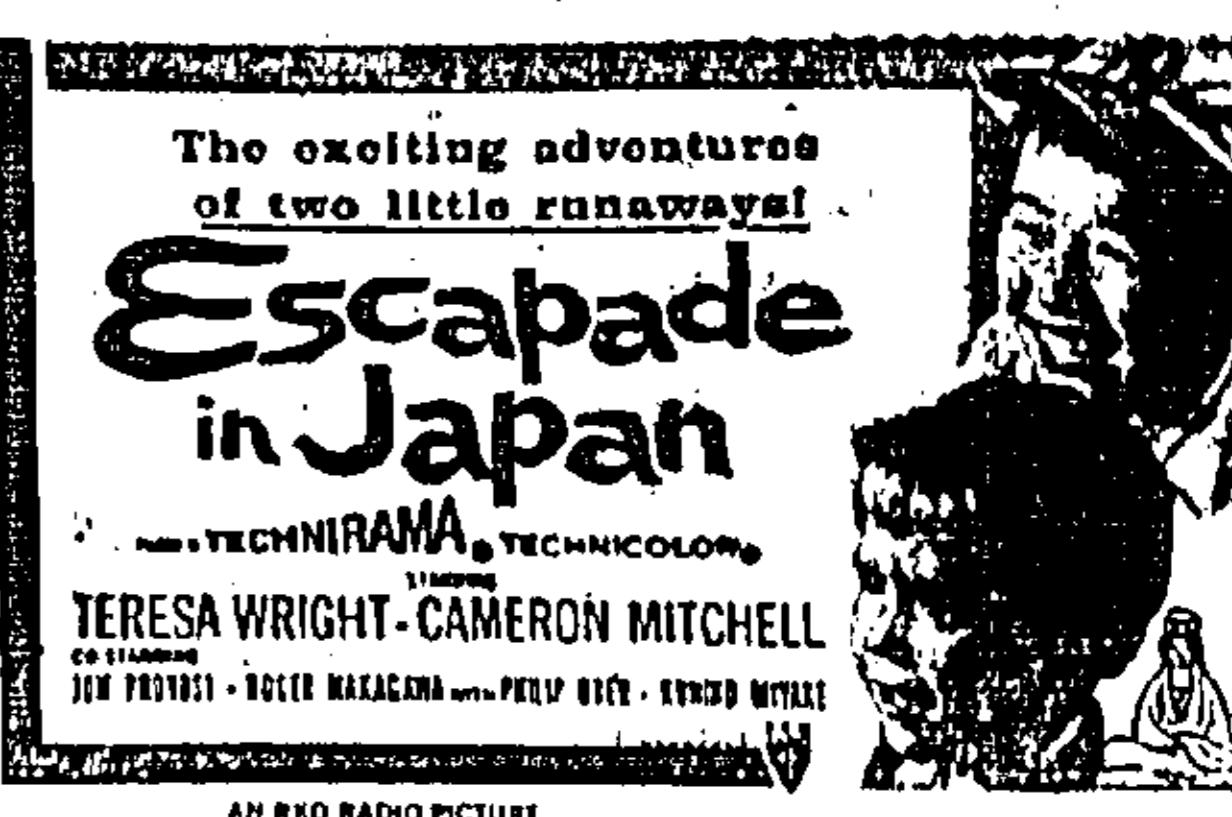

NS SAVANNAH

The cargo-passenger ship, the NS (nuclear ship) Savannah, is being built for the government by the New York Shipbuilding Corporation. The launching is scheduled for next year, and by 1960 the Savannah is expected to be in regular service.

E. I. Teale, President of New York Shipbuilding Corp., told the symposium that the various international codes which will come day regulate and set the course for design of nuclear vessels will have to be developed from experience with the Savannah.—U.P.I.

Chinese Seamen File Million-Dollar Suit Against Shipping Co

New York, Aug. 21. Eleven Chinese seamen from Singapore today sued a Norwegian shipping line, claiming that they were "cowed into terror" and that they suffered "brutal physical and cruel mental treatment" aboard the vessel *Hoegh Silverwave*.

Non-Flying Officer Lands Jet Plane

Washington, Aug. 21. The U.S. Air Force today honoured a non-flying officer who safely landed a jet plane in darkness after the plane's pilot suffered a heart attack.

Lt. Robert M. Kerr, 29, brought the T-33 two-seat jet plane safely to the base at Iwakuni, Japan, last October. He was given the Cheney Award for 1957 for "an act of valour, extreme fortitude and self-sacrifice in humanitarian interests."

NIGHT MISSION

The incident in Japan occurred when Kerr was flying a night mission as radar observer for Major Leonard L. Conkle. Conkle lapsed into unconsciousness with a heart attack and Kerr elected to try to land the jet plane and save the pilot's life. He kept the plane going for 40 minutes, flying it from the rear seat, and then glided to a landing when the jet ran out of fuel.

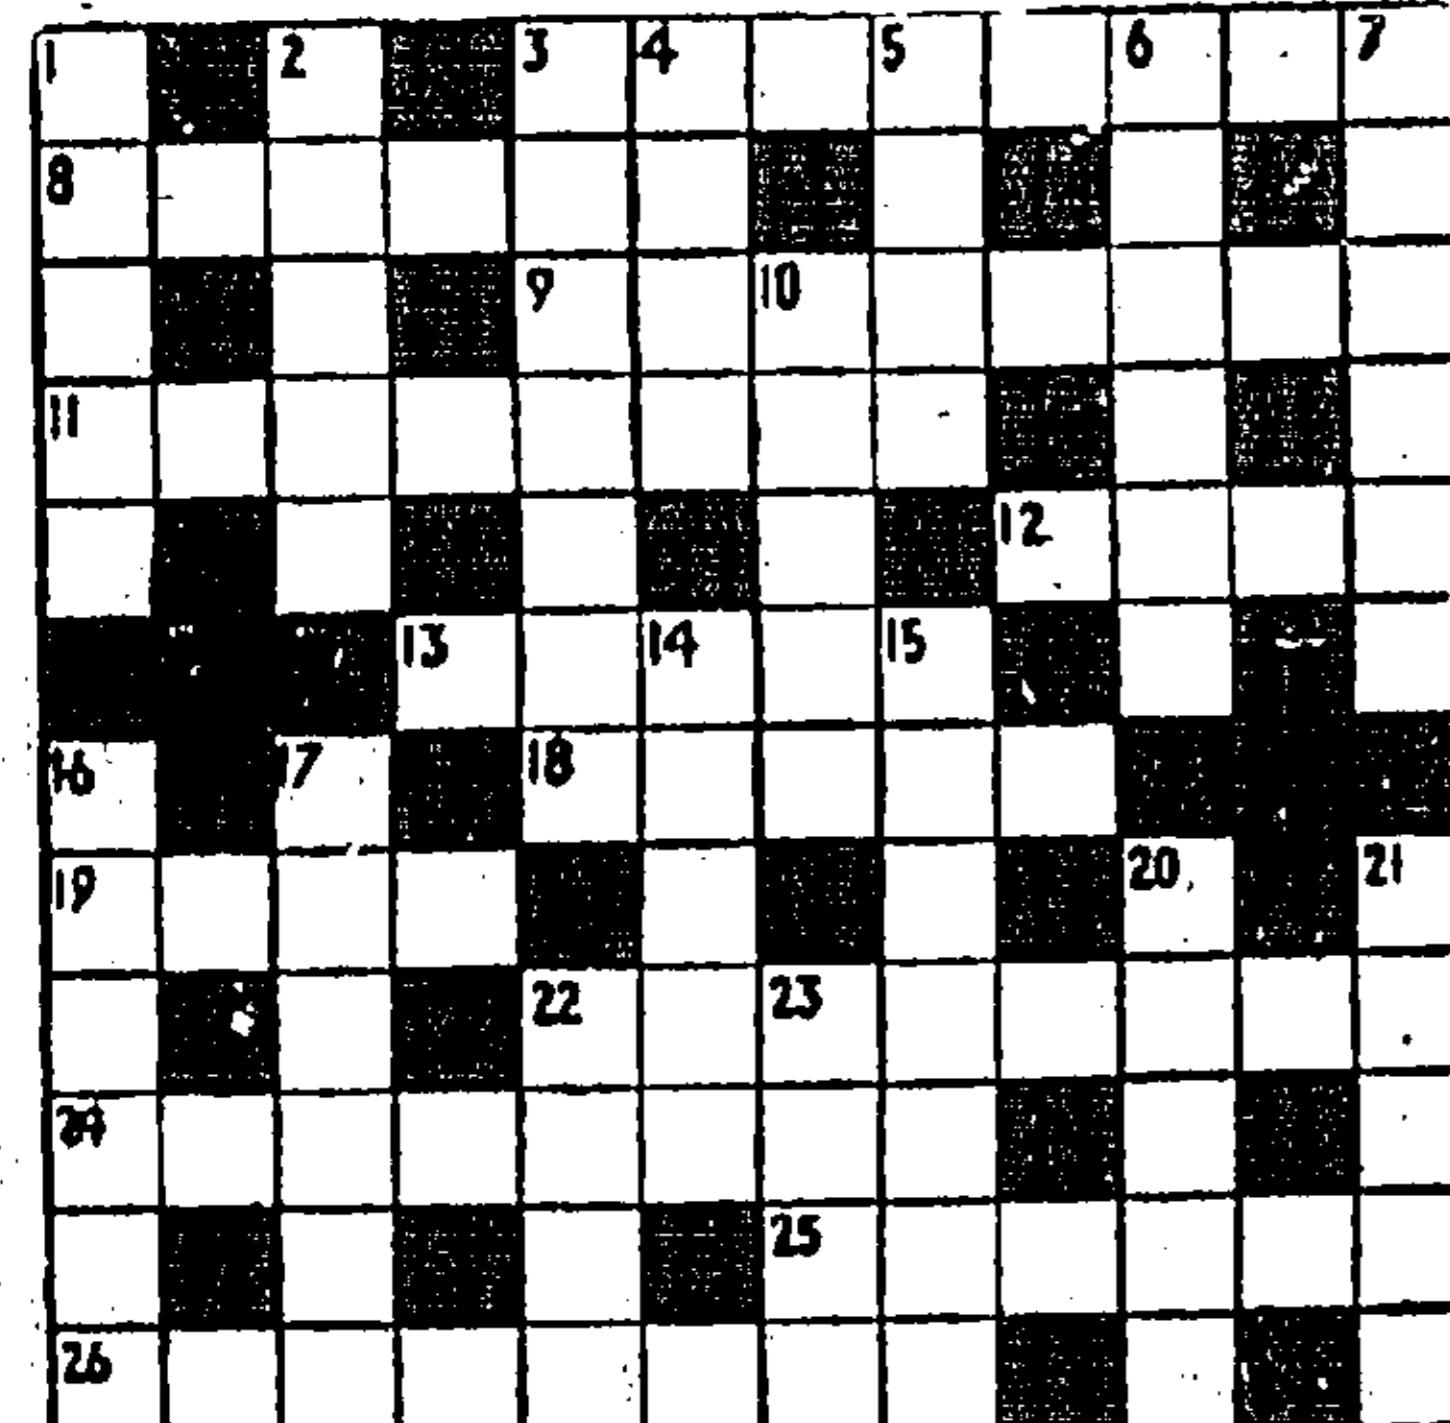

La Kerr was eliminated from pilot training in 1952 because of a "flying deficiency." —U.P.I.

Safe Landing

London, Aug. 21. A British European Airways Viscount airliner carrying 40 passengers made a successful emergency landing today at London Airport.

The airliner turned back to land with a jammed undercarriage shortly after leaving for Geneva. —China Mail Special.

"Sorry! Our path to the Summit's been closed—by a road block, or, which doesn't exist..."

LINKING THE OLD AND THE NEW

A Century Of Telecommunications
"EUROPE and America are united by telegraph. Glory to God in the highest, on earth peace, goodwill to all men."
Handicapped-by-a-perspiring-operator over the first Atlantic cable on August 16, 1858, that message began an era in telecommunications.

By

BILL RAVENSCROFT

The directors of the Atlantic Telegraph Company in England, who sent it to their colleagues in America, were jubilant.

So was the rest of the world.

The skill of engineers and the perseverance for more than two years of the crews of two little cable ships, considered by Professor Morse, the American electrician, to have resulted in "the great feat of the century".

Now, 100 years later, Cable and Wireless Ltd, the modern successors of the original cable company, plan to lay a single telephone cable from Britain and Canada capable of carrying 37, circuits laid in 1958.

The task of laying more than 2,000 miles of cable between Valentia Island, County Kerry, and Trinity Bay, Newfoundland, in 1958, was shared between H.M.S. Agamemnon and the U.S. frigate Niagara.

First at emints were ill-fated. In a heavy sea, the brake of Niagara's laying-out gear was applied too fiercely. The cable parted, and 334 miles of it were lost in 2,000 fathoms.

A second attempt in the summer of 1858 was wrecked by Atlantic gales. The cable broke and was replaced twice, and each time the ships had to begin the work again. When 200 miles were laid, the cable parted from the stern of Agamemnon, and both vessels had to return to Ireland.

But a month later, they put to sea and, in spite of the hazards, completed the task on August 5.

One week later, Queen Victoria sent a greetings message over the cable to the United States President, James Buchanan.

For his brilliant planning, Mr Charles Bright, the company's chief engineer, was knighted. He was only 29—the youngest man to receive that honour for generations.

A great banquet was given for Sir Charles in Dublin. In New York, they celebrated more merrily. The Town Hall was set on fire by over-exuberant merrymakers in a teetotal procession.

The first public message transmitted across the ocean told the world of the Atlantic collision between two Cunard liners. The news reached England within hours of the mishap.

But insulation faults made transmission intermittent and reception was unreliable.

NOW STIRLING MOSS says: Yes, I felt like giving it all up...but I'm not

AT 23 Stirling Moss is probably the most brilliant driver in motor racing today. At 23 he is also the husband of a beautiful girl, and facing the ordeal of living death, motor racing is still part of me. It's the biggest part at the moment, and I shall go on giving my best to it.

CARDEW: Does your wife Katie (she is 23) want you to give it up?

MOSS: I suspect that she does but she is a loyal girl and wife and she does not say so. She accepts the dangerous sport—and, let's face it, it is part of my life. It is me.

CARDEW: Will the Collins tragedy knock motor racing for six?

MOSS: I don't know. None of the drivers know. But I am sure that Peter would not have wanted any recompiments to be levied at the spot for a single instant. And I know that all the drivers feel that way too. We race because we like it, because it is a great sport and not for the rewards or even for the spectators' benefit. We go into it of our own accord.

And Peter, a magnificent sportsman and a wonderful driver, would have been more jealous than any of us to keep its name clean.

CARDEW: Do you think these frightful accidents, robbing us of young and brilliant lives, will go on?

MOSS: Again I don't know. But I suppose it is inevitable in such an obviously hazardous sport that tragedies will happen. There are tragedies in all things. And they are very difficult to get which is right.

"But we race—and make no mistake about it—because it is in our blood and because it is part of our life. And I for one will go on racing, come what may. There is nothing more to it than that."

over. For me Peter's death is the biggest I have known. We first met more than 10 years ago in hill climbs and we went through the 500cc racing dice together. And we often shared a car. So you can imagine how his loss has hit me.

CARDEW: So you discard the big risks of your calling together with the fact that Katie your wife obviously would like you to give it up?

MOSS: Katie has not asked me to do so. Remember it is my living. Perhaps one day I may get the world drivers' championship if my luck turns or holds good. Then it might be a fair guess that I will switch to a more sedentary and safer way of life.

CARDEW: Finally, if it were not for people like you who have the nerve to risk your neck every time you start off in a big race, would it not be a loss to the designers and manufacturers in learning how to improve a car for the average motorist?

Stirling refused for the first time with a wry smile. Then he said: "Don't give me that boloney. I suppose it is true that driving cars fast in tough competition does telescope a lot of experience for the designer and car manufacturer. It is said that it gathers national prestige too, which is right."

"But we race—and make no mistake about it—because it is in our blood and because it is part of our life. And I for one will go on racing, come what may. There is nothing more to it than that."

Stirling relaxed for the first time with a wry smile. Then he said: "Don't give me that boloney. Three Gold Medals For Britain In Third Day's Events EUROPEAN ATHLETICS MEET

County Cricket HAMPSHIRE SHOT OUT FOR 83 RUNS BY SUSSEX

London, Aug. 21. Hampshire, the County leaders were shot out for 83 runs by Sussex at Eastbourne today, conceding bonus points and a lead of 92 runs.

Sussex, with three second innings, wickets in hand led by 102 runs. The Sussex team bowlers, Ian Thompson and D. Bates, hostile and accurate on a pitch that became awkward and unpredictable as it dried, bowled unchanged for two and a half hours. Thompson took six for 41 and Bates four for the same number.

SURREY ON TOP

Surrey, four points behind Hampshire in the county championship, established themselves in a favourable position against Northamptonshire at Northampton today.

They needed 40 for a first innings lead with eight wickets in hand when a storm stopped play half an hour from time.

Keen bowling came from Eric Bedser (four for 30) Alec Bedser (two for 23) and Peter Loader (four for 37) and this was followed by consistent batting by Surrey against the Northamptonshire spin attack on a soft pitch.

A double century partnership between Cyril Washbrook (97) and Geoff Pullar (128) helped Lancashire establish a favourable position against Glamorgan at

Old Trafford. At the close they were 60 ahead with one wicket to fall.

ONE SIX

Pullar batted four hours 40 minutes and hit one six and 12 fours.

Giovanni Goonesena today took his bowling figures for Nottinghamshire to 11 wickets. Having taken six for 40 in the first innings, he had claimed another five for 48 when Leicestershire followed on.

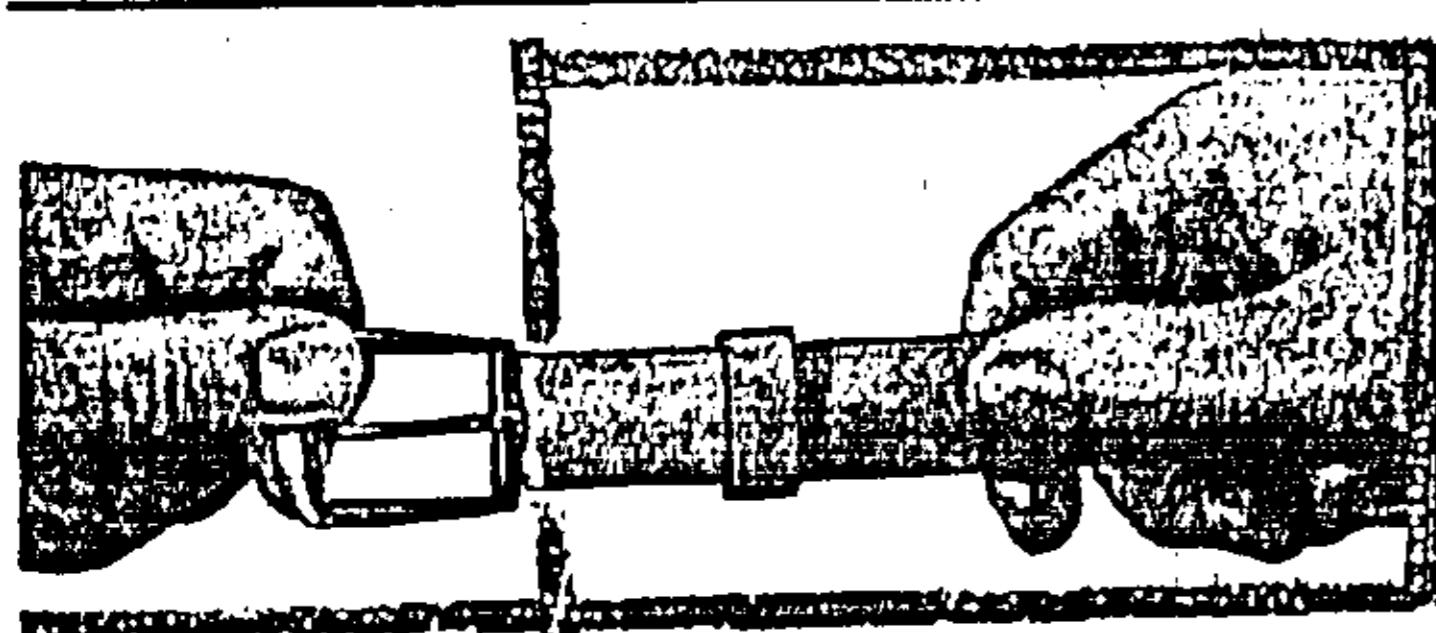

Play ended with Leicestershire six behind and only three wickets left. — Reuters.

DOUBLE FORFEIT

The University versus CAAE ladies' softball match scheduled for yesterday evening was not played off as both sides did not have a sufficient number of players to make up the team.

On the official records, this was shown as a double forfeit and both teams are charged with a loss apiece.

The result of this match makes little difference to either side since South China have already won the championship.

the belt that follows through

Here's the belt that stretches over when you laugh.

The patented Pioneer Stretchway belt gives an inch for good measure — yet never shows it. So flexible it follows through at your slightest breath or mightiest swing at the ball. Stop in today and treat yourself to the brightness of all belt types!

Wins By Heather Young, John Wrighton And Mike Rawson

By V. V. KOLATCHOFF

Stockholm, Aug. 21.

Great Britain won three of the seven finals decided during the third day of the European Athletics Championships at Stockholm yesterday.

In the first final Heather Armitage Young, a physical education instructress from Longwood, laid claim to being the fastest woman in the world when she added the European 100 metres dash championship to her British Commonwealth title against an all-star field of finalists at Stockholm, that included Christa Stubnick of Germany and European record-holder, Giuseppina Leone of Italy.

The six finalists shivered in the cold spell that dropped over Stockholm during the day.

Leone was in the first lane, Vera Krepkina, the Soviet champion in the second, then Heather Young, little bespectacled Madeleine Weston, 5 feet 2 inches shorthand typist from Balham, in the fourth, tough East German Christa Stubnick in the fifth and another Russian, Valia Maslovskaya in the outside lane.

Little Weston was left at the stadium crowd, most of whom had missed the jostling incident.

It was Boysen's first major victory in a long career that has been highlighted with many good performances in minor meetings but not in major international contests.

On a day on which two Swedish records were broken, the greatest ovation received by anyone was that given to lanky Romanian blonde, Ioanita Balas, who scissored her way to an easy victory in the women's high jump with a clearance of 1.77 metres (5ft 9 1/2 in).

Texas-Tall'

The "Texas-tall" Romanian lowered head and shoulders over quite a few of the other competitors and the two girls who took the victory stand with her, England's Dorothy Shirley and Tsiala Chunchik from Soviet Asia, looked dwarfed beside her.

Russia's Vassili Kurnetsov, who had looked all set after the first day's five decathlon events, faltered on the second day and ran a spurious 1,500 metres last event, already well assured of victory. He deserved his European title with 7,885 points.

Golina Bystrova — her surname means "Daughter of the Fast One" — lived up to her name in winning the women's pentathlon and in the process clocked 10.9 seconds for the 80 metres hurdles to demonstrate his bend. Boysen, in the second, will get the silver medal. — Reuters.

Further 10 yards behind, the former collapsed on the finishing line — being carried off on a stretcher.

She was later unable to take her place on the victory stand to receive her medal. — France Presse.

Medal Standings

Stockholm, Aug. 21. Russia has a clear lead in the number of medals won at the European Athletics Championships here after three days.

Soviet athletes have taken four gold medals and nine silver in the 13 events that have been decided.

Britain, with four gold medals, one silver and three bronze is second, and Poland third.

The medal table which takes into consideration by Britain's Mike Rawson over the rest of the 800 metres is as follows:

	Gold	Silver	Bronze
Russia	4	9	1
Britain	4	1	3
Poland	2	1	2
Czechoslovakia	1	—	—
Hungary	1	—	—
Norway	1	—	—
Hungary	—	1	—
Sweden	—	1	—

— Reuters.

Molly Hiscox, new world record-holder in the women's 400 yards was run to a standstill by a Byelorussian, slightly built Marla Itkina, who clocked 53.7 seconds in the generally unpopular outside lane.

She finished a comfortable 10 yards ahead of Ukrainian Eleuteria Poryuk and Molly Hiscox and Shirley Pirie struggled in the inside lanes.

The experienced Boysen was the only good English in the field, but after Rawson's disqualification was announced, he admitted that "I have been declared European champion, but Michael Rawson of Britain is the best 800 metres runner in Europe today."

But Boysen's victory was a very popular one with the

SPORTS PERSONALITIES

PAT GARDNER

He Turned
Down An
Offer To
Play
Pro Soccer

By TONY MYATT

Local sports enthusiasts may have probably seen the last of a truly great all-rounder, who has been reputed for his wizardry with a hockey stick and his unflagging efforts against the heaviest odds on the football field. I speak of none other than Pat Gardner.

When I decided to interview Pat as this week's personality, I was quite unaware of the fact that he was seriously contemplating putting his sporting gear in moth-balls. Pat's decision to leave off anything too strenuous was not without good reason. But, I wonder for just how long he will be able to stay away from his two great loves, soccer and hockey.

When Pat told me "I may not play at all this season," meaning hockey and soccer, it was a bitter pill to swallow. But he said "may" not "won't" and so there is every possibility that he might be tempted back?

Right now you are probably asking "Why won't he play?" Well, let me tell you.

Some years ago, Pat sprained a ligament in his left ankle and was temporarily indisposed. After six months he nursed it back to full strength and returned to the field once more.

Twisted Ankle

Then last season, while playing for the HKFA against a CAAE team in a Governor's Cup match, he twisted his ankle badly. "I probably hit a hole," he said. Anyway he got his foot strapped up and joined in the battle once more. Not long afterwards he had a nasty clash with one of the opposing defenders and that did it.

Pat told me he would try to play again this season, but he said he has doubts as to whether his ankle will hold out. Anyway he is due to go on leave shortly and to put it in his own words, "I want to go in one piece." So who knows how long it will be before we see this great player in action again.

Now let's look at the other side of the story to see just how Pat developed his present skill.

He was born in India into a large sporting family. It was only natural therefore that in the years that followed he took to sport like a duck to water.

First Great Love

Pat's first great love was soccer, it still is.

When he was in his teens he was taken under wing by former Chelsea captain, Bobby Campbell, who was instrumental in Pat's decision to switch from a winger to his present position as centre-forward.

Campbell had great plans for him.

When Pat went to England in 1948, Campbell offered him a chance to play professional soccer for Chelsea. It was a brilliant opportunity, but Pat, with an eye for the future, turned it down. "I was far too young. I was only 18 and wanted to see the world," he said. He has no regrets for that decision.

Exit Lave as a sparring partner. He had already run through five managers in five years. Now manager No. 6, Jimmy Lamb, is willing to sell Lave's contract to Dempsey.

It seems he hopes to manage a fighter in the Dempsey tradition — Kittoe Lave, the Tongan Terror.

Lave ran on to the British Boxing scene in 1956 when he defeated reigning champion Don Cockell on the canvas in two rounds.

Never one to hold his fire, last year he scored Cuba's world title hope Nino Valdes with an over-enthusiastic punch during a sparring session. Worse, the bell had gone.

JACK DEMPSEY ON THE HEAVYWEIGHT TRAIL AGAIN—AS MANAGER

By DEREK JOHN

Jack Dempsey is on the heavyweight trail again. The old Manassa Mauler plans an assault on the title once more—this time as a manager.

The man he hopes to manage is a fighter in the Dempsey tradition — Kittoe Lave, the Tongan Terror.

It seems it needs a tough man to manage tough guy Lave. Dempsey has all the qualifications.

Fine Start By England In Fifth Test

Knock Up 30 Runs For No Wicket After Dismissing Kiwis For 161

US National League Baseball

Ernie Banks Leads Cubs To 5-3 Win Over Pirates In A One-Man Show

New York, Aug. 21. Ernie Banks knocked in five runs with a pair of homers and a double in a one-man show in Chicago today that carried the Chicago Cubs to a 5-3 victory over the Pittsburgh Pirates.

In the only other National League day contest, the Cincinnati Redlegs cooled off the San Francisco Giants 8-1, in San Francisco, behind the six-hit pitching of Don Newcombe, who had not won a game since July 18.

Way To Record

Banks two home runs in his 120th game of the season, raised his total to 40 and enabled him to match Babe Ruth's record 1927 pace. Ruth hit his 40th home in Game No. 120 in 1927 in the day of his record.

Teammates Tony Taylor and Chuck Tanner were on base when Banks unloaded his first home of the day in the third inning. He doubled home Tanner in the fifth inning and then homered with the bases empty in the eighth.

Winning Pitcher

Mois Drabovsky, who yielded only one hit over the first seven innings, was the winning pitcher although he needed relief help from Glen Hobble in the eighth, when the Pirates scored two runs on a pair of singles and two errors. Vernon Law took the loss.

A three-run double by Alex Grammas in the opening inning got Cincinnati off to a flying start against the Giants. Newcombe kept the Giants in check all the way in gaining his third victory against 11 defeats. He gave up only one extra base hit—a 420-foot home run by rookie Leon Wagner in the second inning.

Barnes To Meet Rensburn In Return

Sydney, Aug. 21. George Barnes of Australia, the British Empire welterweight champion, has been matched with South African John Van Rensburg for an over-weight non-title bout here on September 14. The bout will be over 12 rounds at ten stone eight pounds.

Barnes regained the title here from Van Rensburg last Monday, when the referee stopped the fight in the 13th round.

Announcing the match today, Mr Harry Miller, Manager of Sydney Stadium, where the fight will take place, said that Barnes would wait six months before defending his title. Reuter.

New Chinese Swim Record

Paris, Aug. 21. A new Chinese record of 5 minutes 32 seconds was made in Lushun-Dniron today in the women's 400 metres medley relay race of the National Swimming Contest now in the fifth day. Radio Peking reported today.

Among the four girls from Shanghai who knocked 6.5 seconds off the previous record was China's most famous swimmer, Tai Li-hua, the radio claimed.

Another member of this team was 16-year-old Liu Yu-shen, who three days ago in Lushun-Dniron, cut 1.1 seconds from China's 1957 record of 1 min 26.7 secs, the radio added. France-Press.

England made a fine start in their bid for a clean sweep in the Test series against New Zealand on the opening day of the fifth and final Test at the Oval here today. They dismissed New Zealand for 161 and had replied with 30 for no wicket by the close.

Once again New Zealand gave a disappointing batting display, for which it had to later, the pitch was always docile. For spin bowler Alex Molt, batting at number ten, to finish top scorer with 41, it shows up the failure of the experienced batsmen in their true light. He was dropped three times, but altogether showed far more resolution than the others.

In 40 minutes batting at the end of the day, Peter Richardson, 20 not out, and Arthur Milton, 10 not out, belied any doubts as to the condition of attacking strokes to all parts of the ground.

4 Superb Catches

Apart from the losses conceding Moir after tea, full credit must go to England's fielding, features of which were four superb catches—two each by Tony Lock and Arthur Milton.

The attack was most shrewdly handled by Peter May leading the England attack for the 25th time to equal the record set up by former Australian captain Bill Woodfull.

The first five wickets to fall all followed bowing changes, four of them going to the new bowler in his first over.

The only time the New Zealand batsmen looked at all confident was during the 40 minutes partnership for the 6th wicket of

38 between skipper John Reid and Tony MacGibbon they came together at 55 for five.

Unfortunately John Sparling could not complete his innings as he ducked into a short pitched ball from Trueman and was struck on the left ear. He was advised by a doctor not to play again until tomorrow. The ground was never full, though 15,000 crowded into the Oval.

Slow Start

The match began half an hour late because the field had not recovered from the early morning rain. New Zealand made a slow start and neither Moller nor Darcie looked comfortable in the first 50 minutes when he had scored fifteen runs. Then Bailey replaced Trueman and off the first ball of his second over, Milton dived forward from short leg to take a magnificent catch one handed from a Darcie legglide.

Trevor Metal settled down and 25 minutes later felt to another great catch—this time by Tony Lock at fine leg. In the 90 minutes before lunch New Zealand had scored 33 for two.

In Trueman's first over after the interval Bert Sutcliffe

played a curious one-handed

stroke at a short pitched ball

and Watson at third slip held

the catch at his second attempt.

Worse was to come for when Peter May brought on spin for the first time in the match Tony Lock took another lightning catch to dismiss Miller, off Lakon's second ball. Miller spent 115 minutes over his 25 and at 10 became the second New Zealander to pass 1,000 runs on the tour, the other being John Reid.

Aggressive Game

When Statham returned, his fourth ball shattered Playles' stumps and half the visitors were out for 55.

Reid, after a quiet start, reverted to his normal aggressive game and his 27 included a six and three fours. MacGibbon hit Bailey for 10 off two successive balls but was bowled for 26 trying another big hit, shortly before tea, which was taken at 107 for seven.

Soon after the resumption Petrie fell to a superb catch by Milton at silly point and most of the linings was all Moir, who played a mixture of good and bad strokes.

Fitting End

With Blair, Molt put on 20 for the last wicket before Blair was run out. It was a fitting end to England's display as the field and wicketkeeper Geoffrey Evans was making his 80th test appearance—a new world record.—Reuter.

But two other overseas entries came last and second last. They are one of the Czech cars which has lost 590 points—1 missed a control—and a Japanese Toyopet (570 points) which missed the same control and also skidded and turned over on its side.

This Toyopet contains the

husband and wife team—Mr and Mrs Yukio Togo—entered by the Yomiuri Newspaper Company of Tokyo. — China Mail Special.

FORMER OLYMPIC SWIMMER KILLED IN CAR CRASH

Melbourne, Aug. 21. A former Dutch Olympic swimmer and world title-holder, Mrs Cornelius Ineko, better known in the swimming world as Ann Timmermann, was killed in a motor car accident here early today. Ann, who was 35, represented Holland in the 1956 Olympic Games. She came to Australia in 1951.

In 1952, she was official coach of the Australian Olympic swimming team. Her 47-year-old husband was injured in the accident but not seriously. — China Mail Special.

NESTUM PRE-COOKED Nestle's BABY CEREAL

From the fourth month onwards or according to doctor's advice, an addition to the milk diet is essential to meet the needs of baby's growth and development. Supplementary feeding ensures progress and sound sleep.

The early introduction of a mixed diet promotes healthy bowel action and reduces tendency to constipation.

BIG HK DRUG SEIZURES

900lbs Of Opium Taken From Yaumati Sampan

In separate raids over the past few days, Revenue Officers of the Department of Commerce and Industry have seized a large quantity of narcotics.

Three More Years Gaol

A 65-year-old unemployed, already serving a five-year gaol term was given a consecutive three years' hard labour at the Criminal Sessions this morning for possession of a quantity of dangerous drugs.

Leung Fook, alias Fung Kui-hoi, alias Fung Kam, pleaded guilty to possessing five pounds of diace-morphine and three pounds 15.6 ounces of heroin.

Crown Counsel, Mr D. E. Greenfield, said Leung had been arrested in 1955 on a charge of manufacturing heroin. He jumped bail then. Following his arrest on May

this year in connection with the present offence, he was convicted by a District Judge in June and given five years.

American Consul

His Excellency the Government has been pleased to recognise, provisionally and pending instructions from the Secretary of State for the Colonies, Mr Thomas W. Ainsworth as a Consul for the United States of America at Hongkong.

The Government Gazette notified today.

At about 3 o'clock this morning, a party of Revenue Officers boarded a sampan in the Yaumati area and found on board 900 pounds of opium. A Chinese woman has been arrested.

Preventive Service personnel, acting on information, stopped and searched a man walking in Hitler Street yesterday.

The man was found to be carrying three pounds of morphine in a bag. He was arrested.

On Monday, 130 pounds of opium were found by Revenue Officers during a routine search of a vessel which had arrived from Bangkok.

Promotion In H.K. Regiment

Lance Corporal Dennis Etherington Turnbull has been promoted Second Lieutenant in the British Army Pay Code, being divided into two scales for single and married men.

ANNUAL CAPM

For a two-week camp, an unmarried corporal received \$13.40 per day. A married corporal receives \$39 per day.

On August 5, 1958, the defendant attended an annual camp of the Special Constabulary at the Police Training School. On that day he went to the Camp Commandant and said that he had married a woman called Chen Po-lin.

His pay rate was then raised from the unmarried rate to the married rate, and he continued to receive pay at these rates until he left the Force on June 23, 1958.

Early this year, the Police received information that defendant was not in fact married. He was arrested and admitted to the Police that this was the case.

Urban Council

Mr Low Kwon-yip has been appointed an Assistant Secretary to the Urban Council vice Mr G. E. Mather, it was notified in the Government Gazette to-day.

New HK Guides Commissioner

Mrs Irene Windred Hooley has been appointed Colony Commissioner of the Girl Guides Association, Hongkong Branch, vice Mrs F. Owen Hughes, according to today's Government Gazette.

Urban Council

Mr Low Kwon-yip has been appointed an Assistant Secretary to the Urban Council vice Mr G. E. Mather, it was notified in the Government Gazette to-day.

SPECIAL P.C. GOT \$742 TOO MUCH Falsely Claimed

A Marriage

A former corporal of the Special Constabulary, Tong Liu-hing, 28, of 24 Sai Yee Street, first floor, who obtained an extra \$742 from the Hongkong Government by claiming he was a married man when in fact he was not, was remanded for four days by T. L. Yang at Kowloon Court this morning, to give him time to make restitution.

The defendant, who pleaded guilty, joined the Special Constabulary on May 24, 1951, and resigned on June 23, 1958. While serving with the Special Constabulary, he attained the rank of Corporal, and while attending camp and mobilization periods he received certain sums of money.

The court was told that these sums of money were based on the British Army Pay Code, being divided into two scales for single and married men.

ANNUAL CAPM

For a two-week camp, an unmarried corporal received \$13.40 per day. A married corporal receives \$39 per day.

On August 5, 1958, the defendant attended an annual camp of the Special Constabulary at the Police Training School. On that day he went to the Camp Commandant and said that he had married a woman called Chen Po-lin.

His pay rate was then raised from the unmarried rate to the married rate, and he continued to receive pay at these rates until he left the Force on June 23, 1958.

Early this year, the Police received information that defendant was not in fact married. He was arrested and admitted to the Police that this was the case.

TAXI, TOO FAST, SCARED SAILORS

A taxi drove across King's Road for several American sailors beckoning from outside the Arizona Bar. The way the taxman drove across not only scared off his prospective customers but landed him in Court charged with careless driving.

The taxi driver, Tang Yiu, of 15 Tin Lok Lane, first floor, was fined \$150 by Mr Kenneth A. Phillips at Central Magistracy this morning. His licence was also ordered to be endorsed.

Sub-Inspector B. Webster prosecuted.

Sub-Inspector G. Lloyd testified that on June 1 at 4.55 p.m. his patrol car was proceeding east along King's Road when a taxi on the opposite side suddenly drove across the road at an angle of 45° and came to a halt three feet away from the kerb outside the Arizona Bar.

The Police had to brake hard to stop in time and the American sailors refused to hire the taxi, saying "It's... dangerous," added the inspector.

Probation Officers

The Government Gazette today announced that the following have been appointed Probation Officers: Mr Ching King-sun, Mr Albert Choi Wing-cheung, Mr Choy Kim-fun, Mrs Priscilla Tee Ip Wan-fan.

A.F.S. Appointment

Mr Peter Cheung has been appointed Deputy Superintendent, Auxiliary Fire Service, it was notified in the Government Gazette today.

Company Dissolved

The name of Arthur Bell Hongkong Ltd. has been struck off the register and the company dissolved. It was notified in the Government Gazette today.

INQUIRIES INTO MISSING YACHT BEGIN

The American Consulate General announced today that an inquiry into the whereabouts of a sailing yacht, Tora, which left Keelung, Taiwan, for Hongkong on July 7, was initiated yesterday after a letter was received from the mother of one of the four men aboard the vessel.

The four are D.C. "Buzz" Bohning, 26, of Belmond, Iowa; Allen T. Farmer, 26, of Chattanooga, Tenn.; D. L. Martin, 27, of Seattle, Wash.; and John L. Van Doehren, 24, of Elkhart, Indiana.

Van Doehren's mother, Mrs Elizabeth Van Doehren of 1305 Woodward Ave., Elkhart, wrote the letter to the Consulate General here. She expressed concern for her son and asked for any information regarding him and his three companions.

An inquiry was begun immediately. Verification was made that the Tora, with the four men aboard, left Keelung on July 7 for Hongkong. No additional information has yet been gained, a Consulate spokesman said. He reported that the inquiry will continue.

TRIAD OFFICER SURRENDERS TO HK POLICE

A 37-year-old ex-policeman in Canton, who surrendered himself to Police Headquarters as a triad member yesterday, was cautioned, bound over in \$500 for two years and placed under Police supervision for the same period by Mr Hin-shing Lo at Central Magistracy this morning.

Defendant, Tse Man, now a

coffe foreman of 2 New Market Street, first floor, was despatched in Court as a "Hung Kwan" (red-pole fighter), an office-bearer of the 14K Triad Society known as the "Pat Tai Sin" (Eight Fairies).

Sub-Inspector R. E. Laurel, officer-in-charge of the Anti-Triad Squad, said that among this group were some well-known ex-members of the Canton Police Force. Defendant joined the Society in China and that he must have achieved some standing in China to be a member of this "Pat Tai Sin" group, but the Police have not received any reports of him being active in the Colony. Inspector Laurel added.

The Prosecuting Officer also pointed out that recently there have been a number of cases in which triad members surrendered themselves to the Police and, Inspector Laurel said, he believed he was correct in stating that they have usually been bound over.

"However, the Police would not like it to be thought that any triad member, no matter how active or otherwise, has only to surrender himself to be bound over, to continue with his activities with impunity," Inspector Laurel added.

The Inspector added that if the Police knew that a surrendered triad man was important, they would say so, and if the man had been active, the case would be prosecuted accordingly.

Persists

"If this defendant or any other person in a similar case persists in regarding himself as a triad member after conviction and conducts triad activities, he will be re-arrested and prosecuted," Inspector Laurel emphasised.

Inspector Laurel told the Court that defendant had five previous convictions between 1948 and 1956. He added that from his inquiries, he believed that defendant might genuinely want to sever his triad connections.

Defendant said he joined the Society in 1944 in Canton and that the purpose then was to fight "for my country", but in the Colony the Society had deteriorated to crime. He first found this out when the riots occurred in October, 1950.

He was also disqualified from

obtaining or holding a licence

for 12 months. A fourth charge

of possession of an instru-

ment fit for unlawful pur-

poses was taken into considera-

tion. He was given 10 months

to pay the fine.

JAPANESE SHIPS TO HK INCREASE RAPIDLY

By a China Mail Reporter
Since 1952, when the first Japanese ship came into Hongkong after the war, the tonnage of Japanese shipping entering the Colony has shot up rapidly until now Japan is second only to the amount of British shipping entering and leaving Hongkong harbour.

Last month, according to to-

day's Government Gazette, 67 Japanese ships cleared Hongkong with a total tonnage of 26,400.

From 1948 to 1952, Norwegian shipping was second to Britain using Hongkong. In that period, the highest number of British ships to enter the Colony was 353, in June 1950. This figure dipped as low as 189 in May 1956.

Two years after the first Japanese freighter passed through Hongkong, the number of ships from Japan surpassed the number of Norwegian ships, and ever since then the tonnage has steadily widened, according to Government statistics.

The Inspector added that if

the Police knew that a surrendered triad man was important, they would say so, and if the man had been active, the case would be prosecuted accordingly.
